

# Converting Captions to Your Own Language Globalizing Resilience

– and Rocket Mass Heating Systems!

Many videos let you hover your cursor over a video to reveal a menu bar similar to the one shown here at the bottom of a YouTube video. Click on CC (Closed Captions) to turn on subtitles. Then click on the settings icon. Often it will pop up with a very wide selection of languages. Here, we clicked on Ukrainian.

Notice, below, subtitles now in Ukrainian. Translations not perfect, but along with the video, you'll understand discussions far better.

Let's see some original Ukrainian videos, people!  
Happy to feature them on RoadmapToLife.org.  
Let's share the warmth!

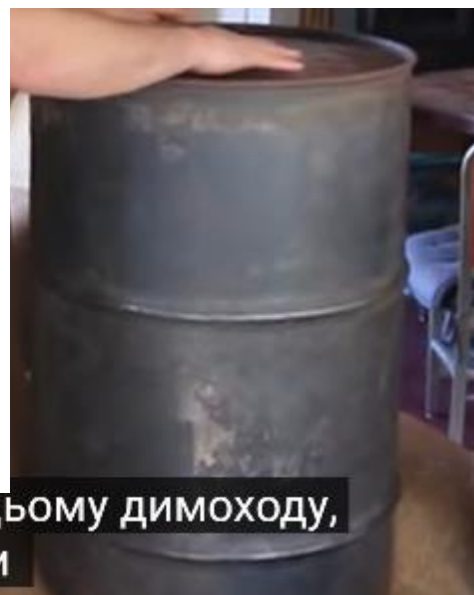

Email me if you have original Ukrainian videos or other information to share with Ukrainians who really need this help:

**LLWilsonGlobal@gmail.com**

Happy to feature them on
